Explore a whole new world of fun and adventure with the **Car-Go Lite** Adventure sports camper. The minimalist approach to this trailer blends comfort and function into a uniquely designed and forward looking coach. The light weight and low profile allow you to enjoy the fuel efficiency of towing with a very small vehicle while maintaining great on the road handling.

The **Car-Go Lite** trailer boasts creature comforts such as an optional microwave, air conditioner, and refrigerated cooler. A true hybrid, the power of our optional on-board battery and environmentally friendly solar sheet will provide hours of 12 volt operation so you can camp away from the crowds. With the state-of-the-art and maintenance free solar sheet, there is no need to run an expensive and bothersome "charge line" from your car to the trailer just to maintain the battery, but rest assured you're battery will be ready to camp when you are.

The **Car-Go Lite** has a bounty of crossover features that truly set this trailer apart from the crowd. Its angular step boards add style and flair, but they also help to elevate you to the optional Yakima compatible roof rack. The rear saddle bags finish off the sleek lines of the trailer and provide convenient storage areas for your gear and battery. Inside the cabin, you'll find stalls for the optional air conditioning, microwave and refrigerated cooler, or if you chose, they can be used for storage. Also inside is a large under-floor compartment for tools, cargo, or gear. A 4" thick cushion set provides a comfy queen-plus sized sleeping surface. Overhead cargo straps let you stow lightweight items like clothes and blankets, or the cushions themselves.

"Micro-Lite"... It's more than just a name, it's how WE build our trailers.

Introducing the

by Micro-Lite Trailer

Enjoy the secluded beauty of the back roads. The Car-Go Lite is for those of us that love adventure and good times. Our convenient features will give you quality, comfort, and pleasure. You'll be absolutely amazed at the versatility of the Car-Go Lite. It is the ultimate companion for the camper, the hunter, or the out door enthusiast.

But the bonus is the fact that it can also be used as a cargo trailer. The roomy interior allows you to easily load full sheets of plywood or drywall. Large boxes and cumbersome objects are no match for the 40"x 56" rear door.

Dealers will delight in these other thoughtful manufacturing features. The Car-Go Lite was designed with you in mind, the 100" length means that it can be loaded sideways, so instead of 5 units you can get 7 in a load for no extra cost. Also, the large, open interior is a perfect place for Mo-Jo motorcycle trailers. Wow, that means you can get up to 14 units in one single load!!

Now come on...that's amazing!!
